- Agriculture: Food and Bioproducts for a Sustainable Future
- Energy and Mineral Resources: Technology and Public Policy for a Sustainable Environment
- One Health: Solutions at the Animal-Human-Environment Interface
- Synchrotron Sciences: Innovation in Health, Environment and Advanced Technologies
- Water Security: Stewardship of the World’s Freshwater Resources

ABOYD US

The University of Saskatchewan (U of S) is one of Canada’s most historic and distinguished universities. Established in 1907, the U of S is a member of the U15 Group of Canadian research-intensive universities, and is the only university to hold two Canada First Research Excellence Funds.

Our main campus is situated in the vibrant city of Saskatoon on Treaty Six territory and the traditional homeland of the Métis, and is one of Canada’s most beautiful campuses. We’re well known for our collaborative, interdisciplinary approaches to tackling some of the greatest global challenges of our era—water and food security, energy sustainability, and infectious disease.

UNIQUE CENTRES

- Canadian Light Source
  Canada’s only facility for synchrotron light research
- VIDO-InterVac
  one of the largest vaccine research and teaching facilities
- Health Sciences
  a new standard for interprofessional health education, research and practice
- Global Institute for Food Security
  developing Saskatchewan-led solutions to feed a growing world population
- Global Institute for Water Security
  supporting sustainable use of the world’s water resources and protection against natural hazards such as flood and drought
- Sylvia Fedoruk Canadian Centre for Nuclear Innovation
  supporting global leadership in nuclear research, development and training, and supplying radioisotopes to detect and treat diseases such as cancer

WE ENCOURAGE CREATIVITY.
WE LIVE SUSTAINABLY.
WE BUILD CONNECTIONS.
WE VALUE DIVERSITY.
WE SEEK RECONCILIATION.
